

March 2023

Fellow Aviators

If you fly in east Tennessee, you know how hard it is to find a home for your plane. Meadowlake is a small flyer-centered community built and operated for the love of private aviation.

Meadowlake Airpark, 12 TN, is owned by a local pilot who has put his heart and soul into this project. The initial work has tarred and painted the runway, repaired and rebuilt shade hangers, which are in both a T and drive thru configurations. A new fuel tank has been added for club members.

For more about club membership and use of hangers, please fill out the contact form found at www.meadowlakeairpark.com or call Sammy at 1-833-FLY-12TN (359-1286) and leave a message.

T-Hangers 40'x25'

Rectangular Shade Hanger 45'x25'

New hangers are on the horizon!.....
